Informative(s):

- 1 Reasons for granting permission/consent-

The proposal is for the display of one internally illuminated fascia sign. The proposed signage is considered to be acceptable in terms of its size, design, materials and location. The fascia sign is internally illuminated and with illuminance at no greater than 200cd/m², is acceptable. The four digital displays behind the glazing are shown on the drawings. Internal adverts have deemed consent and have not been assessed as part of this application.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

The proposal would not cause any adverse impacts on the amenity of adjoining residential occupiers in terms of loss of light, outlook or privacy.

The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies D2 and D4 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
