

Subject:

Camden ref.2022/3622/P

Suzanne & Michael Graney,
9 Russell Mansions,
WC1B 5aj

We strongly object to this planning application.

The noise and air pollution are absolutely unacceptable.

We live in close proximity to this building and we can hear the the pumps from our home.

We are extremely worried about the amount of carbon dioxide the pumps are discharging into an area so close to us.

We are of a certain age and we are obviously very concerned for our health and well-being.

These pumps are causing us a lot of stress and anxiety.

Please reject this application and enforce the removal of this equipment as soon as possible.
