| 2022/5528/P | Mike Neumann | 27/01/2023 07:10:46 | SUPPRT | <p>We support the application as the design is similar to the existing roof extensions at No's 24-32 Elliott Square and those recently approved for No's 10-15 Elliott Square. A consistent design approach ensures the architectural quality of the Square is maintained. The proposed design and construction to current standards will also improve the energy efficiency of the existing property and reduce its carbon emissions.</p> |
