| 2022/5538/P | John Heather | 31/01/2023 13:44:37 | SUPPRT | The proposed improvements to the property will greatly enhance it, the mews will benefit from this as well as the occupants. The development is welcomed by me and has my full support. |
| 2022/5538/P | Ken Ellis | 31/01/2023 10:30:04 | COMMNT | <p>My comments combine the favourable with concerns:-</p> <ol style="list-style-type: none">1. That the existing form of the property meets planning regulations.2. If so, that proposed alterations with increased use of the roof space do not affect the privacy of the rest of the mews houses and courtyard. If affected, the inappropriate causes would be the increased view from the property overlooking the courtyard, noise and lighting. There are ten attached mews houses in a horseshoe shaped courtyard open through the arch to the street.3. Lighting pointing in the right direction could aid security instead of intruding.4. The proposal for timber window frames is welcome.5. Returning to a concern: fire safety. Would it be compromised by the proposed alterations encouraging increased use of the roof space? |
