2022/5469/P	Jonathan Chapman	31/01/2023 16:54:13	COMMNT	As a neighbor to this applicate, I want to record my strong support. I have also applied for permission to undertake similar work according to the design. The applied for design is similar to the existing roof extensions at No's 24-32 Elliott Square and those recently approved for No's 10-15 Elliott Square. Having a consistent design approach ensures the architectural quality is maintained across the estate. I would also note that the proposed design and construction to current standards will improve the energy efficiency of the existing property and reduce its carbon emissions
