- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

### Description

Please describe details of the proposed development or works including any change of use

Scene & Heard propose replacing and refurbishing the existing broken external doors/gates to its premises, 128A Chalton Street. We are not undertaking any change of use, nor any structural building work. The refurbishment will improve accessibility, safety and security. Designed in line with the design brief for the building, it uses robust materials, suited for its external setting and for use by children and the community. This repair and upgrade of the entrances will improve the premises, ensuring it meets standards in the public realm - safe by design, fully accessible and legally compliant.

Scene & Heard, a local children's charity, lease 128A Chalton Street Somers Town from Camden (10year lease). It is designated Community Use (D1) and houses the charity's classroom space, costume & prop store and offices. It is Scene & Heard's headquarters, an arts hub in the heart of Somers Town, from where the charity serves the community, working with local children and young people. The external doors/gates to the property are broken and not secure. They are not fully accessible to people in wheelchairs, as the current design allows only half of the door to open unless a member of staff is called, leaving disabled visitors/wheelchair users waiting in the street whilst the doors are manually opened by a keyholder. In addition, the existing doors have been highlighted as a potential risk in the Fire Risk Assessment and the glazing in the doors has repeatedly broken as it is not suitable for an external setting.

Our location has previously been identified as a high-risk area - a high density urban situation with many routes of escape, with a local history of vandalism. As an organisation that provides a welcoming safe space for Camden's children and young people, Scene & Heard requires secure boundaries. However, we do not want our external doors/gates to be defensive in appearance or appear closed off to the public. The design of the replacement external doors/gates therefore is playful, in keeping with its setting, allowing light to flow through. A bespoke design of powder-coated steel gates, incorporating a light privacy mesh, has been developed by Pylon Designs, experienced in creating entrance gates for educational institutions that are welcoming while maintaining security and fire safety. They will be built and installed by Harling Security, who work with Pylon to create bespoke gates and fences for educational settings.

Our aim is to create a safe, welcoming, sustainable place for the community. By replacing broken/faulty and temporary materials with metal gates we are supporting sustainability goals as once fitted the gates will provide a robust, quality entrance suitable to its positioning at the edge of an outdoor play area. The work has been planned to be inclusive, accessible and to meet the diverse needs of a wide range of users inc. those with impairments, young children, families with prams/buggies plus our own staff and volunteers.

## Existing Use

Please describe the current use of the site

Newly constructed, self-contained ground floor unit (D1 community use) within the new CST development scheme and below a residential block. Originally designed as a nursery building (for St Aloysius school), the property is well-suited to the needs of its leasee Scene & Heard, a registered charity who work to benefit Somers Town's local children and families. The property itself has an entrance into a large courtyard which can serve as a play area, with some attractive planting, with a further separate entrance into a small courtyard, leading to offices. Comprising open plan classroom space, smaller offices, a kitchenette and accessible toilets, the space has large arched windows. There is no change to existing use.

As shown on drawings, all brickwork will remain as existing.

S&H Design and Access Plan

Scene & Heard's building at 128A Chalton Street is part of the Polygon Road redevelopment in Somers Town. As tenants, Scene & Heard provide Camden with an effective FRI Lease, D1 use, as an established charity that delivers in line with the community objectives of the Camden Plan 2025. Legal interest is held by Camden Council and Scene & Heard. Camden Council have agreed that the entrances can be replaced. We have received advice from the Commercial Property Team and the Principal Planning Officer that planning permission is needed to progress refurbish and upgrade the entrances.

Design & Access statement of the original Planning consent is referenced in Scene & Heard's vision for the building and approach to this project, creating:

- a community hub that particularly benefits local children, young people and their families
- a community tenant delivering activity that is integral to all the other community partners at the Polygon Road development: Scene & Heard works closely with Edith Neville Primary School, Plot 10 and the families of Somers Town.

Scene & Heard prides itself on being a trusted and welcoming community resource and our new-build space positively welcomes residents into the development . Unfortunately, the current entrances are flimsy, inaccessible and boarded up with plywood, making the building look unsafe and unfriendly. Installing secure, functioning entrances will help local children to feel welcome, cared for and increase their sense of belonging to the local community.

The arched language of 128A Chalton Street is common in Somers Town - the Ossulston Estate has a number of arched openings. The replacement gates will use this language and will use the existing colour palette of the original gates, with their black metal frames. The new steel gates will provide a sense of safety and openness, the design echoing the curves of the building and also the branches of trees within the play area/courtyard. Bespoke light steel meshwork will allow light to flow through the gate whilst also providing a level of privacy, important in a community building where safeguarding issues must be considered.

The entrances are level thresholds, and this does not change with the proposed replacements. Brickwork will remain as existing.

Details of the pre-application advice received

Kristina Smith advised us to submit the application for replacing the doors and she listened to our description of the problems with the existing door design, including its inaccessible nature, understanding the need for replacement. She appreciated that Scene & Heard had been in long-term discussions with regards the problematic design of the doors and understood that the charity was willing to undertake repair and upgrade as a way to progress the work and make the doors safe and secure. Ms Smith had also spoken with Christine Dove in Commercial Property, who is familiar with the building and has seen the doors, having organised the temporary repairs. Ms Dove has been shown the designs for the replacement doors, which she has briefly discussed with Ms Smith, and agrees that they are in keeping and will improve the existing provision. The Camden team are aware that the glass in the door to Chalton Street originally cracked in September 2021, when Camden's caretaker who was trying to open the door, and the glass in the door to the childrens' play area (which is the main entrance to Scene & Heard for children and their families) cracked in March, injuring a staff member. It is recognised that the materials used in the existing doors are not suitable for their external setting and need to be replaced. Scene & Heard have lodged a CIL application to part-fund the repair and Scene & Heard have agreed to cover the remainder of the cost.

## Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
