2022/5469/P	Gaurika Gambhir	07/02/2023 10:38:16	SUPPRT	We are strongly in favour of these extensions. This design is similar to the extension done by 24-32 Elliot square and few others approved in the square. This design will not only improve energy efficiency and carbon emission of these houses but we think the consistency approach will help improve the aesthetic/architecture quality of the square.
