The replacement of the front boundary is welcomed and the brick/detailed finish should be carefully selected to reflect and enhance the host property. The installation of railings around the existing open lightwell would be uncharacteristic and harmful to the host property and streetscene and would not be supported. Further thought should be given to the number of stores located within the front garden and care should be taken to ensure that their finish complements the host property, streetscene and conservation area. The landscaping should explore opportunities to further enhance biodiversity and any paving should ensure that it is permeable.
