2022/5065/P	Ceri	10/02/2023 22:47:20	JUST	The second half of the design and access statement is missing from the document uploaded. You can tell that from the index page. It is therefore impossible to provide a considered set of comments, as we do not know very much about the proposals. I have raised this directly with the planning officer some weeks ago,, but it still has not been uploaded, and comments are now closed. Please can you upload the full documentation including details of the design statement so that people can give properly considered comments? Thank you
