Hi Laura,

Sorry for the delay in getting back to you on this.

It is fine for the arboricultural side of things to be dealt with separately from the EIA scoping report, sorry for any confusion on that issue. Please could a tree survey and arboricultural impact assessment be submitted at this preapp stage so that we can begin to fully assess the arboricultural implications of the development. I assume these have been done already as there seem to be references to it in the existing submission.

Thanks,

Tom Little
