2023/0556/T	Highgate Conservation Area Advisory Committee	18/02/2023 13:55:11	COMMNT	<p>The sycamores do add some greenery to the streetscape but we agree they are inappropriate for the site. However, we would like the case officer to explore the possibility of using rock salt covered by thick plastic, rather than herbicide to treat the stumps. We would also suggest that the trees are replaced by more appropriate shrubs such as can be seen in the front gardens of numbers 67 and 68.</p> <p>Louise Lewis Highgate Conservation Area Advisory Committee</p>
