2023/0750/T	T. Maes	23/02/2023 16:00:01	COMMNT	Wide, mature, tall trees are a key characteristic of the South Hampstead conservation area. They provide a high level of visual amenity and are key for biodiversity, especially where gardens are increasingly covered in artificial lawns. Application 2011/5662/T refused an application for the felling of a tree on this location on these grounds. Should the tree now be removed, could the council please demand replacement planting of a suitable specimen?
