Dear Mr Fowler,

Having now received and reviewed a copy of the Planning Representations from the Confederation of Local Community Groups, please accept my own objections to this planning application which are fully represented by the Confederation's detailed objections which have already been filed.

Personally, I have followed the debates to some degree to date, including hearing from the police, utility companies and others about the poverty of the plans and the unlikelihood of their delivering a viable living space. The Representations are absolutely stunning in their revelations. How can you possibly be thinking of approving this, given the potential for Camden acquiring a horrendous reputation in the eyes of everyone except development companies; given the likely poverty of living space and services (schools, GPs, green space) for new residents; as well as the negative impact on the surroundings we and so many live in?

Regards

Jonathan Potter
