Description of Proposed Works

Please describe the proposed works

Changes to the exterior of the 1980s rear extension:

- Alterations to the existing windows and fenestration pattern. The new windows will be vertically proportioned and less dominant on the elevation.
- Changing the exterior façade of the rear extensions – replacing the modern metal cladding with white silicone render.
- Adding thermal insulation behind the new silicone render.

Changes to the interior of the rear extension:

- The ground floor bedroom to become a study, with the 1st floor bedroom level to be removed to create a double height space.
- Reconfiguration of the 1st floor bathroom to create a storage area and larger bathroom

Changes within the original property to comprise:

- Removal of the suspended ceiling on the 3rd floor, retaining and revealing the existing roof joists. The roof will be insulated between the existing rafters at roof level, a secondary board of insulation will be applied which will conceal the rafters.
- Internal alteration of the main bathroom on the 2nd floor to add a new dressing room closet area with doors.
- Improving the thermal performance of the existing 1980s rear extension by adding thermal insulation on the inside of the external perimeter.
