

## 2023 Terrace Maintenance Programme for 68 Fitzjohn's Avenue, NW3 5LS

### Schedule of works

The following works are based on weekly visits throughout the year, following completion of the planting:

- Pruning all shrubs and climbers at the correct time of year to ensure good form and full flower.
- Ensuring all climbers are correctly trained and tied to existing supports, wires or trellis.
- Cutting/ pruning all topiary to ensure good form.
- Cutting back perennials and grasses at the correct time of year.
- Tidying, weeding and deadheading flowers in all beds, borders and pots.
- Mulching planting beds in Spring and Autumn if required.
- Inspecting plants for all common insect and other pest infections or diseases and applying pesticides, insecticides and/or fungicides as appropriate.
- Applying feeds and fertilizers to planting areas including pots as appropriate.
- Watering all planting areas as necessary each visit.
