Dear Mr Fowler,

ref: 2022/0528/P O2 centre redevelopment

Having now received and reviewed a copy of the Planning Representations from the Confederation of Local Community Groups, please accept my own objections to this planning application which are fully represented by the Confederation's detailed objections which have already been submitted. I am particularly dismayed by the cramming of all these tall buildings into such a small site with minimal gaps between each structure... I suggest that at least 30-50% of the buildings should be removed so that the development feels genuinely spacious. In addition I also object to the limited size / floor area of each flat where the accommodation is cramped and there is no roominess or space for storage. Finally I object to the demolition of The O2 centre which is a valuable local amenity.
