Having now received and reviewed a copy of the Planning Representations from the Confederation of Local Community Groups, please accept my own objections to this planning application which are fully represented by the Confederation's detailed objections which have already been submitted.

Although I'm now a retired Architect, I nevertheless am still interested in what's going on in the environment around me.

In this context I am appalled that the council should have countenanced this application at all and also considering the debacle of the Swiss Cottage development. If this goes ahead it will be regarded in the future as an absolute travesty of what a planning decision should be about. Of course it would at the same time also reflect the general political attitude that's prevailing right now.

I've lived in this area for many years and feel this development would have a detrimental impact on the community and environment.

This is a vast enterprise and out of scale with the surrounding architecture in the conservation area.

There would be a considerable loss of light to many dwellings and views from those homes would be obliterated.

The scale of numbers of the incomers would not be sustainable.

I hope you will consider the points I am making in objection to the proposed plans. These are only some, out of many, previously submitted by the Neighbourhood Development Forum.

Many thanks

Yours sincerely
Stephanie Shrager

I am a local resident on Compayne Gardens and immediately affected by these horrendous plans,

Best,

Juliana
