2022/0528/P	Andrew Wettern	14/01/2023 14:20:52	COMNOT	<p>This application should not be approved unless:</p> <ul style="list-style-type: none"><li>- there are significant amounts of retail, grocery, dining and leisure accompanying the development (of at least equivalent to the current offered by the O2 centre)</li><li>- there is a full analysis of the impact on Finchley Rd and West Hampstead tube stations</li></ul> <p>The current local residents will suffer sever detriment and loss of property from the proposed development. I thought the council should be trying to make Camden better whilst delivering new housing.</p> <p>Where is the accountability?</p>

2022/0528/P	Mr Stainforth	22/12/2022 11:49:12	WREP	I think this development will cause umpteen problems on local infrastructure! Their's not the school capacity/medical capacity. West End Lane is crowd already with commuters between the 3 W.E.L. stations and when the Travis Perkins residential development (Not a bad thing as previous building was poor) site is completed, It will add further footfall to the commuting congestion. I'm in favor of keeping existing and/or a new hospital.
