2023/0663/T	Arthur Max	28/02/2023 11:31:52	SUPPRT	<p>As the neighbor directly adjacent to the rear garden of 48 Canfield Gardens, I heartily endorse the application to fell and uproot two Leylandii and trim four others. In fact, because these trees are so difficult to maintain properly, requiring annual sheering, I would have recommended felling all of them. The trees completely block our spring sunshine until the afternoon hours and constantly shed brown needles into our garden. Now, several trees are clearly dying and could be in danger of collapse. Given the direction of the prevailing winds, individual branches in a storm, or even the trees themselves, could damage our property and perhaps others on Compayne Gardens.</p>
