From:
THE HEATH & HAMPSTEAD SOCIETY

We must object most strongly to the proposed excessive front dormers which replace the correctly sized small dormer.

1. This proposed dormer will be very visible from the street and is not set back far enough from the front façade.
2. The front elevations are misleading in suggesting that there are two dormers joined by a set back portion. The real effect seen from the street will be that of a very wide dormer very different from the original dormers and the near-by dormers.

The dormers would detract from the Conservation Area.
PLEASE REFUSE
