Bin Storage Unit

metroSTOR PBM 5 Bin Storage Units
Firenze Anthracite Grey - HD Galvanised Finishes
- Latch Euro Cylinder Lock - Aperture - WRAP Signage

metroSTOR PBM has become widely recognised for enclosing and controlling access to waste streams successfully, wherever the ubiquitous four wheeled bin is in use. With apertures specific to waste or recycling streams, a wide choice of cladding, finishes, and access control systems has established metroSTOR PBM as the tough and versatile bin storage solution.

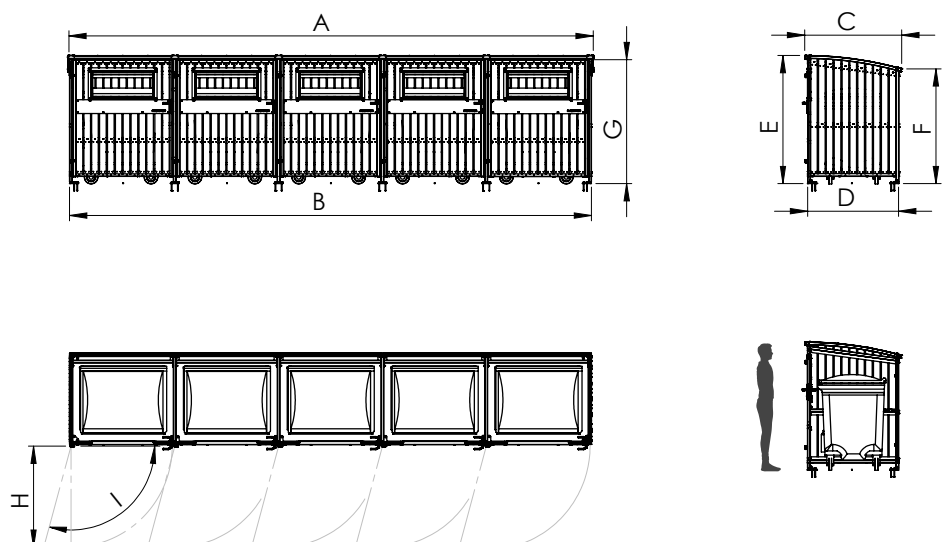

Specified on new developments and existing schemes, metroSTOR PBM makes efficient use of available space, consolidating waste stream containers in a row of neat units. A wide range of standard and bespoke finishes enable outdoor storage units to be coordinated with architectural

building fabrics and external works schemes. Site-wide coordination of outdoor storage units and street furniture is made easy to specify with a library of CAD blocks and BIM models available for download.

metroSTOR PBM offers class leading levels of adjustment in unit ground fixing points for varying site conditions, reducing expenditure on enabling groundworks. The highly durable units are relocatable, and door recycling aperture inserts can be interchanged on site should site requirements or waste collection regimes change over time.

metroSTOR PBM 5 Unit Dimensions

(A)	Roof Width:	7542mm
(B)	Base Width:	7490mm
(C)	Roof Depth:	1390mm
(D)	Base Depth:	1310mm
(E)	Height Front:	1839mm
(F)	Height Rear:	1650mm
(G)	Door Height:	1796mm
(H)	Door Clearance:	1455mm
(I)	Door Swing:	105°
Storage: 5no. 770L - 1280L Bins		

PLEASE NOTE: Product dimensions given are correct at time of publishing April 2022. All dimensions are in millimetres and capacities in litres and don't form any part of the contract.
